

Offer Management System Enhanced Layout

AppCubix Ltd. team design a new and enhanced layout for Odin's Offer Management System and included many new features, allowing user to view, filter and sort data with utmost ease.

Current Desktop system was complete redesigned to be used as a website and facilitate customer to access the system from anywhere.

A new approach with Tab Bar on top was adopted which allows a better containment of features and provides ample space for massive data sheets.

With addition of several new and convenient features like Dashboard, Change History, Country Search and Selection, Column Selection, Improved and Smart Filters improves the User Experience considerably, hence making it easier to use and retain loyalty of the customers.

The screenshot displays the Odin BOS Offer Management System interface. At the top, there is a navigation bar with the 'odine BOS' logo and menu items: 'OMS', 'DASHBOARD', 'CALENDAR', and 'HISTORY'. A search bar and a hamburger menu icon are also present. Below the navigation bar, there are several tabs: 'ACTIVE ROUTES & PROVIDER RATES', 'FILTERS', 'DETAILS', 'RATES', 'LEGENDS', 'ALERTS', 'SAVE', and 'DATA SETTINGS'. The main content area features a data table with the following columns: 'Select Country', 'ABC Telecom_Sell TP', 'BD_Tel', 'Vodafone', 'DC_TP', 'FrigLGold', 'Frigg_Silver', 'Klara_NEW', 'Klam_Silver', 'Lomo', 'Heimdall', 'Hennod', '99 SellTP', 'INGRESS_TP', 'Taza_new', and 'Talk_line'. The table contains data for various countries, including Afghanistan, Albania, and Algeria. At the bottom of the table, there are controls for 'Show Rows: 30', 'Go to Column: 0 1 2 3 4 5 6 7 8 9 A B C D E F G H I J K L M N O P Q R S T U V W X Y Z Show All', and 'Go to page: << < 1 2 3 4 5 6 ... 22 > >>'.

Offer Management System Enhanced Features

The screenshot displays the 'Active Routes & Provider Rates' section of the OMS interface. The table lists various routes and their associated rates across multiple providers. Key features highlighted include a search bar for country selection, a smart menu for navigation, a quick column scroll for navigating through columns, a row selection control, and a column selection control.

Country selection menu allows users to select and display data of relevant country names

Country Search allows user to search specific country and view data

Quick column scroll allows users to quickly scroll through columns. It displays first alphabet of column name allowing user a smooth scroll to desired column

Allow user to load desired number of rows

Allow user to view data of columns with desired salutation

New smart menu saves space for data display and can accommodate large number of desired options

Quick column slide allows user to quickly browse through data

Offer Management System-Dashboard

Inclusion of Dashboard in the current system can have very strong effects on how users use the system. Dashboard gives a clear summary full system at a single page and allows Account manager to make intelligent decisions.

Top section of the dashboard displays number of destinations, number of providers, loss on destinations, number of profitable destinations, number of Account Managers and Future forecast of updates.

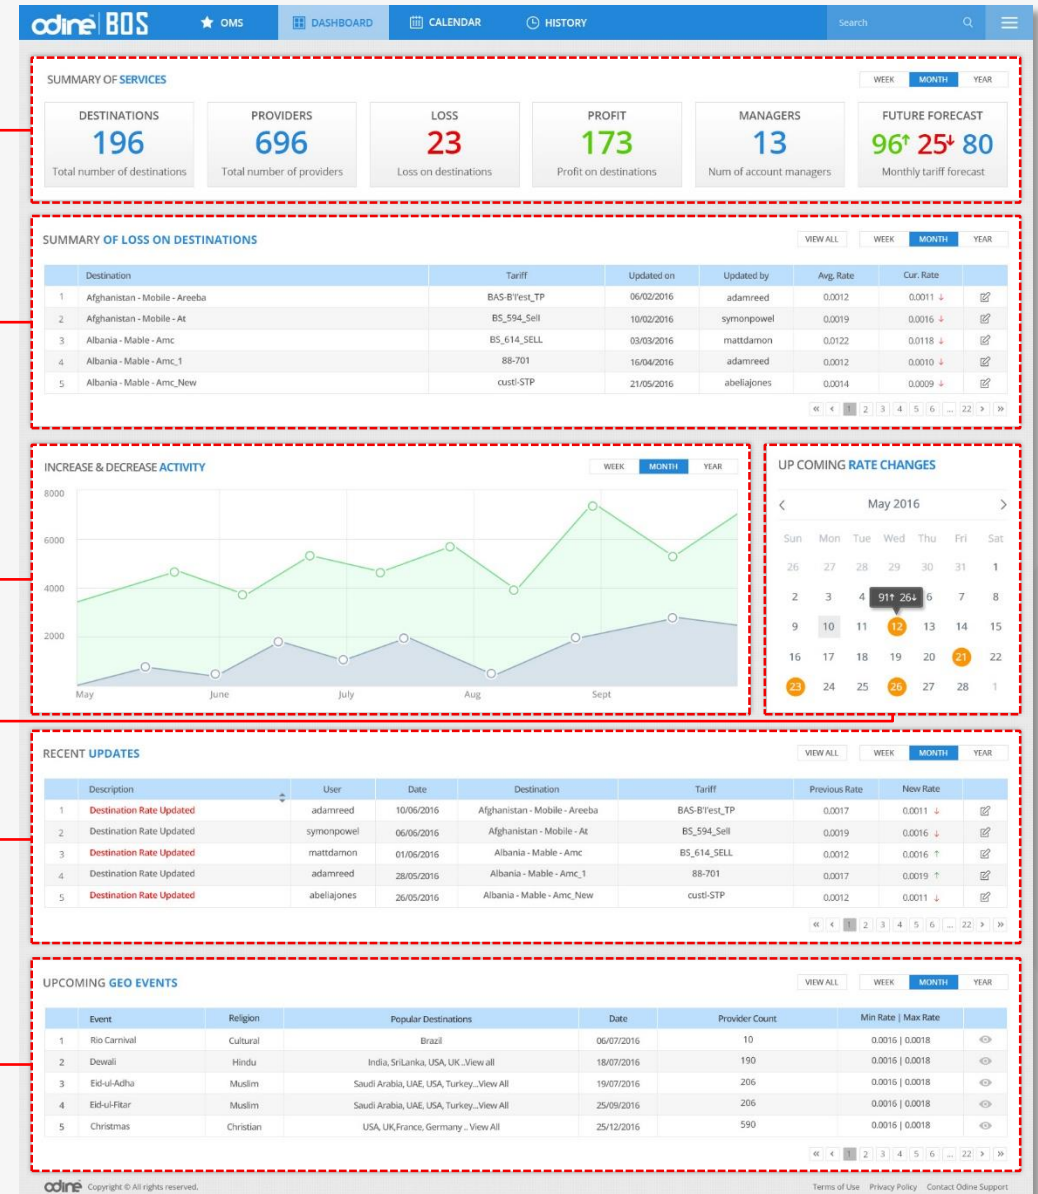

Second section of Dashboard displays the most important feature 'Loss in Business' and gives clear details to Account Manger about the destinations in loss, for prompt decisions. Account manager can quickly take decisions and make changes with a single click form 'Edit' feature.

A graph in third section provides clear visual about the increase activity of tariffs on weekly, monthly and yearly basis. Yet another very powerful feature for decision makers.

A calendar displays the upcoming updates. Previously red color was used t highlight the upcoming update which is now orange. Red color represents the danger where as system only represents the update. Addition of tooltip allows user to view increase and decrease in the number of tariffs on given date.

Recent Updates, yet another very important feature of the system. User can easily track updates and history with a single click and can make changes and take intelligent decisions. Currently it displays Tariff changes with an option to edit and make changes at a single click.

Another very important and unique feature added to Dashboard is 'Upcoming Geo Eevents'. This features allows account managers to make intelligent decisions based on the upcoming events around the globe. Account managers can adjust tariffs, depending on the size of event, number of people celebrating and expected load. A full Event base information based system can also be developed on demand.

Offer Management System-Calendar

Addition of Calendar in top menu allows user to view and conveniently access upcoming changes .
User will be able view upcoming change via tool tip and access with a click.

The screenshot displays the Odine BOS interface with a calendar overlay for May 2016. The calendar shows dates with offer changes, such as the 12th, 21st, and 26th. The main table displays offer details for various countries and services, including rates and legends.

Offer Management System-Quick Filters

Filters are the most important and key feature of Offer Management System. Addition of new feature 'Quick Filters' is an intelligent filtering solution for novice and power users. User can filter data on a single click without using the manual filter.

Quick filter provides some pre defined filters (marked in green) and user defined filters (marked in blue).

User can create new Quick filters by clicking on the 'Create New Filter' button.

The screenshot displays the Odine BOS interface with a table of routes and provider rates. A 'Quick Filters' overlay is active, showing a list of filters. The 'Quick Filters' section includes pre-defined filters marked with green checkmarks, such as 'Show all destinations in loss'. The 'Manual Filters' section includes user-defined filters marked with blue 'X' icons, such as 'Update rates for Vodafone UK' and 'Filter for Denmark, Sweden and Norway'. A 'Create New Filter' button is located at the bottom of the overlay. The background table shows columns for 'Select Country', 'ABC Telecom_Sell TP', 'BD_Tel', 'Vodafone', and several other columns with numerical values.

Offer Management System-Quick Filters

The screenshot shows the Odine BOS interface with a table of routes and provider rates. A 'Quick Filters' dialog box is open, allowing users to save manual filters to the 'Quick Filters' list. The dialog box has two sections: 'Quick Filters' and 'Manual Filters'. The 'Manual Filters' section includes fields for Account Man., Service, Destination, Customer, and Tariff, along with Rate Range, Margin, and Page size. A checkbox labeled 'Save this filter to 'Quick Filters' list.' is highlighted with a green dashed box. A red dashed box highlights the entire 'Manual Filters' section. A red arrow points from the text box on the left to the 'Save this filter to 'Quick Filters' list.' checkbox.

Apart from the readjustment of the Filters and addition of Quick Filters, user can save filters directly from the Manual Filters. User just need to click on the check box 'Save this filter to 'Quick Filters'(marked in green) and all the filters applied via Manual Filters will be saved directly to Quick Filters.

Offer Management System-Docking Quick Filters

Users will be facilitated by docking filter pallets. User can just drag and drop filter tab from the menu and it will convert into a docking pallet providing all the features. User will be able to move tab, resize and minimize it as per convenience.

The screenshot displays the Odine BOS interface with a navigation bar (OMS, DASHBOARD, CALENDAR, HISTORY) and a search bar. The main content area features a table titled 'ACTIVE ROUTES & PROVIDER RATES' with columns for 'Select Country' and various providers like ABC Telecom, Vodafone, and others. A 'Quick Filters' panel is docked on the right, showing a list of saved filters such as 'Update rates for Vodafone UK' and 'Filter for Denmark, Sweden and Norway'. A red box highlights the 'Quick Filters' panel, and a red arrow points from the text box to the 'Quick Filters' tab in the panel's header.

Offer Management System-Details

User will be able to view details of Provider Rates conveniently from the 'Details' dropdown menu.

The screenshot displays the Odine BOS interface for Offer Management. The main table lists various providers and their rates. A 'Details' dropdown menu is open for the 'Albania-Mobile-Plus' provider, showing a sub-table with columns for Service, P.Ep Group, Max Rate, and Avg. Rate. A red dashed box highlights this dropdown menu. A red arrow points from a text box on the left to the dropdown menu.

Offer Management System-Country selection menu

The screenshot shows the 'odine BOS' interface with a navigation bar containing 'OMS', 'DASHBOARD', 'CALENDAR', and 'HISTORY'. Below the navigation bar are tabs for 'ACTIVE ROUTES & PROVIDER RATES', 'FILTERS', 'DETAILS', 'RATES', 'LEGENDS', 'ALERTS', 'SAVE', and 'DATA SETTINGS'. The main content is a table with columns for various providers and rates. A dropdown menu is open over the 'Select Country' column, showing an alphabetical list of countries from A to Z. A red arrow points from a text box on the left to this dropdown menu.
